

HELPFUL HINTS ON **CONNECTING TO THE INTERNET**

HOW TO CONNECT TO WI-FI:

- Ensure the Wi-Fi antenna is installed into the port at the back of box.
- Using your remote press the **MENU** button.
- Press the **BLUE** button (settings).
- Press the **DOWN ARROW** to highlight **NETWORK SETTINGS** at the bottom of the page and then press **OK**.
- You should have **NETWORK** highlighted. Press **OK**. Select **Wi-Fi**. Press **OK**. It will now search for network options.
- Using the **UP & DOWN ARROWS** highlight your network and press **OK**.
- You will now see the keypad displayed on the screen. Enter your **Wi-Fi User Name & Password** using the **ARROWS** on your remote. **Highlight** the letter or number you need and Press **OK** to select it. Once you have entered your User Name & Password, highlight **ENTER** and Press **OK**. It should say "connecting" then "connected".
- You are now connected.
- To exit this setting repeatedly press the **EXIT** button on your remote until your Christian channels appear again.

HOW TO CONNECT VIA ETHERNET CABLE

- Turn off your Set Top Box.
- Plug your ethernet cable into the back of the box.
- Turn the box back on and wait for it to boot up.
- You are now connected. Press the **IPTV** button and your channel list will appear.

CONNECT TO 15+ MORE CHRISTIAN CHANNELS WITH IPTV.

1. Ensure you are connected to the internet.
2. Press IPTV button and enjoy your additional channels.
